Dear Mr. Brown:

Thank you for your letter of February 4, 1989, concerning "environmental sensitivity." I apologize for the delay in responding.

I agree that this is a very important issue, one that affects many Canadians, and one that warrants further study and close attention. I appreciate your suggestions in this regard, and I have taken the liberty of forwarding a copy of your letter to the Honourable Perrin Beatty, Minister of National Health and Welfare. Your letter will assist me greatly in future discussions with Mr. Beatty and my other colleagues.

Thank you again for your valuable input, and please stay in touch.

Yours sincerely,

Barbara J McDougall
